

Question Set 01

The data of all the students and teachers of Pinduwa Maha Vidyalaya are stored in books. As a result, some data has been destroyed. Therefore, the principal of the school has decided to enter the data of all the students and teachers in the school into computer software. The software was commissioned by AI Soft. Assume you work as a software engineer for that company and the part you are assigned is to create the database. To do this, create a database using the information below.

01. Create a database called "school_db" to store teacher and student data.

02. Create a table called "student" to store students' data. Follow the instructions below to create this table.

Table Name	student	
Colum Name	Data Type	Length
index_no	VARCHAR	10
first_name	VARCHAR	45
last_name	VARCHAR	45
gender	VARCHAR	10
contact_no	VARCHAR	10
address	VARCHAR	60

03. Create a table called "teacher" to store teachers' data. Follow the instructions below to create this table.

Table Name	teacher	
Colum Name	Data Type	Length
techer_reg_no	VARCHAR	10
first_name	VARCHAR	45
last_name	VARCHAR	45
gender	VARCHAR	10
contact_no	VARCHAR	10
email	VARCHAR	50
